A Rhyming Match.

Pittsburg having become sated with spelling matches has invented a new feature in the "match" line in the shape of a "rhyming match," which is thus de-scribed by the Leader man: Last night the new idea was put into

practice by a rhyming match at the First Universalist, Church, Grant street and Third avenue. About one hundred and fitty persons collected in the church, and the entertainment was opened with a spelling match, followed by the rhymers. Prof. Durwin, of the High School, acted as schoolmaster upon the occasion, with C. C. Lean and Dr. J. C. Buffum ir., as captains of the respective sides which numbered twenty persons each Mr. Lean's side won the spell, but Dr. Buffum's "got away" with the others on the rhymning. The modus operandi for conducting the latter contest was that the schoolmaster should give out a line and the captain of one of the sides should make a line within five seconds to rhyme to it; then the other captain would make another line to rhyme, then No. 2 on the other side should follow suit, and on the other side should follow suit, and so on. The verse was to consist of four lines, and if a pupil was longer than five seconds in making his rhyme he would go down. When one verse had been finished the schoolmaster proposed another line, and three lines would be given by the pupils in regular order to rhyme with it. Here, for instance, is one of the verses, which was composed last night in fifteen seconds:

(Teacher)—Tis hoped all will give attention to the teacher,

(Dr. Buffum)—Because he's such a nice creature;

(C. C. Lean)—L's well portrayed in every feature—

(C. C. Lean)—It's wen person every feature— (Frank Buffum)—You cen't say so of Henry Ward Beecher. The last line, spontaneous as it was, thing that occasioned considerable mertally remarked to one of the captains "get all your side to suck to you." Cap-tain Lean at once made a rhyme of it and said, "and don't, Mr. Teacher, kick up such a hullabatoo."
Rhyming matches, now that the ball

has been started, will soon throw "speliin' schules" into the shade.

A lady of Washington county, New York, is the mother of a large family ochildren, and they are all rather diminutive. Speaking of Edwin Forrest's last ap

pearance on the stage, a correspondent says: His last engagement was in Boston. He had had an attack of pheumo-nia which affected one of his lungs. Mr. Oakes, his life-long friend, implored him not to go on the stage again. He was ill all the afternoon, so hoarse that he could hardly speak. The play was "Richelieu." All the entreaties of his physicalana and friends could not keep him The popular notion, that the present generation is physically weaker and smaller than the primitive or ancient, is not utterly unfounded, but there is abundant evidence that the reverse is true. Most of us would be amazed if not shocked at a true and life-size portrait of the real Eve, "mother of all living." We often hear, indeed, of giants' bones here and there dug up, but intelligent examination invariably proves them to have belonged to the manmoth or other animal. A singular blunder of the kind shows the real value of such reputed discoveries. Years ago, a skeleton was dug from the calcareous shale at Coningen, which the veteran savant Scheuchzer confidently christend "Homo diluvit testis"—the man who saw the flood. Casts of it were made for various museums, and, in full faith in the legitimacy of the name, one Deacon Muller was moved to write some plous and editying lines about it. Unfortunately, the first competent study of the skeleton proved it to be that—not of an incient sinner, but a large salamander, of Japan. The indications are that the primeval man of Europe and his nearer descendants were of short stature.
